Welcome to our thirteenth on-farm deer auction.

It's been a challenging spring, with a big flood on farm right at button drop for these sale stags. We lost grazing for half the farm for quite some time due to silt and water. The grass was slow to come away and we really lacked warmth in the early spring period. The stags took a bit of a check at this time and we believe this is reflected in the velvet weights this year. For that reason, we do expect these stags could make another weight jump in their 4 year velvet weights.

Here at Altrive Red Deer we are striving to produce sires that perform well in a commercial setting and that grow velvet that is desirable to the industry.

We do not preferentially feed sale stags, and no PKE is used on farm. Small amounts of grain from button drop is offered. Stags are wintered as a cohort on swedes and baleage.

As always, we enjoy hearing feedback on how the animals are performing on your property!

We wish you all the very best for the year ahead!
Andrew, Samantha and Geoff Elder.

We look forward to hosting you on the Thursday 11th January 2024.

The stags will be available for viewing from 4-4.45pm and velvet out from 4.45-5.15.

There will be STRICTLY no viewing of sale stags after this time to ensure the auction runs on time for BIDR.

Photos of velvetting stags should be on our website
www.altrivereddeer.co.nz
by the New Year.

After the sale please join us for a BBQ dinner and Refreshments.

For updates and the velvetting stag lots, please see our Facebook page or website in the new year.

Biography:

206-20 6.9kg @ 3yr. 21/23.5 and 21/23 in the beam. A lovely stag with all the style that Altrive strives for; clean, industry desirable velvet so we used him as a 2yr old for our 2023 mating. His velvet weight may have been affected by this, and since then he has been running with the mixed age sires so he hasn't had it easy. We will get a weight next time the sire stags are in, but he has a good body size.

His sire, [ALT 34-14](#) 13.3kg also had a good head and was sire of lot 2 and lot 5 in 2023. All of his ET sisters have bred sons sold at auction, and one is the dam of Glaisnock with yearlings and 145-17 with sons in this catalogue.

135-17 is by 765-10, a stag that has had sons of good velvet weight with sons over 9 and 10kgs, including 240-19 sold for \$70,000.

The maternal grand dam, 94-13 is a full sister to sire [ALT 22-14](#), national 3-year champion, people's choice. 9.5kg @ 3yr and 14.4kg @ 5yr.

138-11 is a top hind who was used in our embryo program twice and she has a son, 219-20 in this catalogue. Her other sons cutting 4.0, 6.45 and 4.90kg @ 2yr.

Not only did he have sons in this sale, but his ET sisters also had a son each in 2023 sale.

283-17 first son weighed 9.30kg @ 3yr, so she is producing good velvet mass.

121-07 is another excellent hind, used as a donor twice and the dam of [ALT 105-12 \(Southern Man\)](#) sold for \$67,000 and used as a sire here at Altrive. Another son 131-16 sold lot 1 in 2016 for \$32,000, and another 23-19 was sold in 2023 sale for \$22,000.

122-98 is the great grand dam of both [Joseph](#) and [ALT 105-12 \(Southern Man\)](#). Another extremely good pedigree in this stag.

Biography:

198-20 at 7.0kg, a lovely head and was cut first of the bunch, and you will see we jumped the gun a bit on this one and he is cut very early. His two-year weight very good at 5.75kg and great length. He is a big framed stag to go with it. Beam measurements 19/22 and 18/22. By sire [ALT 211-15](#). 8.0kg @ 3yr and 10.5kg @ 6yr.

This is the first son for 71-16 who is out of the embryo program, her embryo brother 155-16 7.0kg @ 3yr. Her embryo sister's only stag 55-19 7.70kg @ 3yr sold in 2023 for \$16,000.

77-14 is a top hind with her son 167-17 lot 2 in 2021 for \$17,000. There was another ET brother; 144-17 and a half-brother natural mate after ET 282-17 sold in the same sale. 77-14 is ET sister to 82-14, dam of Glaisnock.

Biography:

98-18 9.4kg @ 3yr but one side was damaged and so he didn't make sale. His comments in our velvet book were good as a four year old but wasn't considered for sale as we had plenty of 3yr olds. Beam measurements 23/30 and 23/27, a small tyne off the bulb which should tidy (he didn't have this previously). As a 5yr he cut 9.7kg and we are also offering his ET brother 80-98 11.15kg @ 5yr for sale this year. Both are stags that will make plenty of impact in a commercial herd.

191-12 their dam had sons 66-16 sold lot 2 for \$17,000 in 2019, 123-16, 9.55kg and 77-18 were other sons sold in 2022. 191-12 has been used again as a donor this year along with 5 of her daughters. One of them 10-15 is dam of 24-18 10.4 sold \$46,000 in 2022 and 70-19 8.35kg sold \$13,000 in 2023. 191-12 is 150kg and a top hind with sons at 3yr 9.4, 8.5, 7.7, 9.55 and 8.4kg. Biography:

80-18 cut 11.15kg @ 5yr, 10.5kg @ 4yr and 8.5kg @ 3yr. This stag didn't make the sale at 3yrs and had a nice 4yr head but we had loads of good 3's. This stag has a top pedigree out of ET program and should breed on well, backed by a tidy head with enough weight to make a buck.

191-12 their dam had sons 66-16 sold lot 2 \$17,000 in 2019, 123-16, 9.55kg and 77-18 also made the cut as sires in 2022.

191-12 has been used again as a donor this year along with 5 of her daughters. One of them 10-15 is dam of 24-18 10.4 sold \$46,000 in 2022 and 70-19 8.35kg sold in 2023. 191-12 is 150kg and a top hind with sons at 3yr 9.4, 8.5, 7.7, 9.55 and 8.4kg.

Biography:

149-19 9.25kg @ 4yr. Beam measurements 23/25 and 24/26. A very tidy head with great tyne placement, but does have snags on both beams. Didn't make the sale at 3yrs but had good comments in his velvet book about his 4yr head, but wasn't offered due to having a good amount of 3yr sires. By [ALT 211-15](#), 8.0kg @ 3yr and 10.5kg @ 6yr. His first crop of 3yr olds were in 2023 sale, the best lot 1 8.55kg @ 3yr sold \$46,000. 25-14 a Zama daughter, producing 2yr sons over 5kg.

191-10 had a son sold in 2016 6.2kg then the same buyer bought several hinds from this dam when they were offered for sale in successive years, so presumably this line was breeding extremely well for him. She has mostly had daughters although has a R2 stag this year we are yet to cut.
