Also featuring: **APEX, BRUSNIS, RIGBY, HUDROCK, AGNEW, METAPHOR, HENNESSY, COGNAC AND CLEVELAND**

# Conditions of Sale

## **DNA Identification**

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding). All stock sold are DNA guaranteed.

## **Insurance**

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

## **Vetted In-Calf Hinds**

All adult hinds have been ultrasound pregnancy tested using a real time ultrasound scanner. Only confirmed pregnant hinds have been included in the sale. All testing was carried out by Dr Noel Beatson.

## **TB Status**

Our herd status continues to be a C10 classification.

## **Conditions of Sale**

The sale will be conducted by Rural Livestock Ltd with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

# Conditions of Sale cont./ Guarantee

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

The sale is conducted exclusive of GST.

A buyers commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with Rural Livestock Ltd.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of the respective stud.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

# Foreword

## Dear Clients and Friends,

Welcome to our 37th Annual Elite Hind & Weaner Sale which we are doing online this year for the first time. We have been thinking about doing our female sale this way for a while now and Covid-19 has hurried that process up for us.

We were lucky enough to complete our ET program prior to lockdown and so are able to offer some of our latest crop of embryos which are hot off the press.

We have included a number of new sires in our breeding program this year in both our ET program and natural matings. These include 5 new 2 year old sires that have been bred here at the stud. They have new genetic combinations to us from a breeding perspective and are mainly bred by ET. In addition we have included Hennessy and Cleveland which are two new sires to the industry this year along with Agnew (a full brother to Nixon) which we are very excited about.

Our continued focus is heavy beamed trophy genetics and this year we have concentrated on siresx with well placed bottom tynes to ensure they will produce good velvet on the way through. Although trophy hunting has stopped for the moment, we know it will return with enthusiasm once this Covid-19 is behind us. We also know that it takes time to produce a good trophy stag and so purchasing these genetics will ensure that we are ready with trophies when hunting resumes again.

As always the progeny is guaranteed. If you are not completely satisfied, we offer a replacement or a credit at a future sale whichever you prefer. So you can buy with confidence. All embryos are guaranteed live fawn on the ground.

We wish you all the best with your purchases and look forward to any feedback that you may have.

Kind regards,

Barry Gard,

Deer Stud Manager, Foveran Deer Park

# Mission Statement

## **Our motto** **Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

*By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.*

**DBVs** Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

**Velvet** By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

**Trophy** The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tined heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

**Temperament** We continually manage and evaluate the herd for this important trait.

**COMMENT:** Cane has been bred here at Foveran. A son of the very heritable McCaw who has produced us so many top stags in previous sales. At 504 5/8 IOA, Cane was placed 4th in the National 2yr HA Competition. As a 3yr old he was placed 3rd in the 3yr section. As a 4 yr old he was placed 2nd in the 4yr section of the Rising Stars at 751 IOA. He was also placed 2nd in the National HA Competition. His mass of antler is impressive and he is growing another massive head this year.

**COMMENT:** Bred here at the stud, his sire Henry VIII has a sound reputation for leaving heavy beamed sons. Fitzroy's dam 9119 is a full sister to Prince Philip who was the SCI World Record sire for 2012. Her dam sire Lewis is also the sire of former SCI World Record sire Charlie Mac and Legend. Fitzroy's antler growth was affected last year but we are pleased to report that it has returned to normal this year. A super long and wide head which he passes on to his progeny.

**COMMENT:** Sired by Fig Jam who has been scored at 826 IOA and with an antler structure typical of his breeding, Munro has an antler structure with the "wow" factor. His dam sire Discombe was a National 2yr HA Champ. He matured at 652 SCI with a 62 inch spread which looks to have been inherited by this young sire. Munro grew a stunning 705 IOA of antler this year and looked set to follow in the footsteps of his sire FigJam prior to his untimely death at the end of his breeding season this year.

**COMMENT:** Mordecai was first used as a 40 point spiker over yearling hinds and is now part of our breeding program with his stunning 2 year antler. We know he will be heritable as a full ET brother is also stunning and we expect this brother to be a star lot in our next stag sale. His sire Rigby and grand sire Leon are among some of the highest scoring stags in the industry. The mix with dam sire Davidson is working well for us and we expect Mordecai to be a very high scoring stag at maturity.

**COMMENT:** We first used Robert Hay as a spiker to mate yearling hinds along with 2 other ET brothers who were also multi point spikers giving us the confidence that these genetics will be heritable. As a 2yr old Robert Hay has a solid frame and an impressive 43 point antler and we are excited to bring this new genetic combination to our breeding program. We recommend his progeny.

# Macedon

Macedon

Age	Antler	IOA
2	41 pts HA 9.94kg stripped	

**COMMENT:** Macedon has an impressive 41 point antler that weighs almost 10kg stripped at 2yrs old. Not unexpected with heavy weighted Alexander as his sire. Dam sire Henry VIII has also contributed to this and remember his sire Henry James held the record for 2yr antler weight until it was broken by one of his sons. We expect Macedon will be a super heavy weight antlered sire at maturity.

**COMMENT:** Phoenix was first used as a spiker to mate yearling hinds. We liked the style of his 2 year old antler and couldn't resist including another Rigby son in our breeding program this year. His dam sire is McCaw who is also the sire of Cane (841 IOA at 5 yrs). Both of these sires are extremely heritable and so we expect this will have a flow-on effect to his progeny.

# Angus

**COMMENT:** Angus was placed 3rd in the National 2yr HA Competition. He has a heavy beamed antler of 16.3kg at just 3 yrs which is hardly surprising given his sire is Alexander. Dam sire McCaw is also the sire of Cane (841 IOA at just 5yrs). A powerful combination for high scoring heavy antlered progeny.

**COMMENT:** Hennessy was purchased as Lot 2 from Crowley Deer by Malcolm Cane. At 638 IOA as a 3yr old, we believe it has great potential as a sire and the ability to be among the highest scoring stags in the industry at maturity. An impressive looking stag.

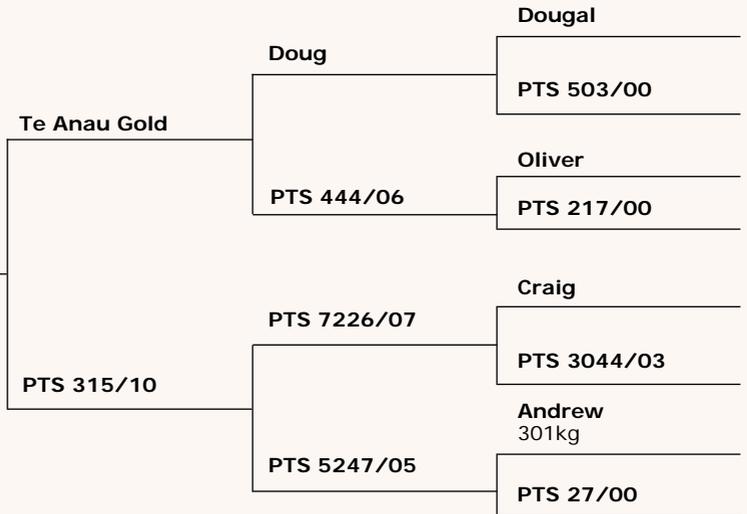

# Kallis

Kallis

Kallis

**COMMENT:** What caught our eye about Kallis was his progeny performance results. In 2015, 2016 and 2017, he has featured strongly in the sire of three categories at the Rising Stars competition. Kallis was also the sire of the winner of the 2015 National 2yr HA competition at the Rising Stars. It is due to this consistency that we decided to use him in our breeding program. Our new sire Titanic is by Kallis – further proof of his heritability.

**Comment:** Metaphor is the current SCI world record stag. He was bred here at the stud and sold as a 2yr old. At 819 5/8 at maturity he was impressive and when offered back semen we took the opportunity to include him in our ET program. Dam 7348 is a full sister to Titanic who we offered as Lot 2 in our stag sale. We decided to keep him when he didn't meet reserve. Grand dam 3291 keeps throwing up top antler genetics as can be seen by our last stag sale. A proven dam line.

**Comment:** National 3yr HA champ Rigby has gone on to now be 860 IOA. Backed up by Leon who is still the highest scoring stag ever. Rigby's progeny are now coming through as impressive young sires. It is interesting to note that Phoenix (39pts @ 2yrs and used as a sire this year) is Rigby over dam 3283. Here we have the added grunt of Hunter back to Davidson in the middle of this already proven mix.

**Recipient Wt:** 125kg

**Comment:** More new genetics for us with Cleveland as the sire who brings Rockafella genetics to the table. We were attracted to Cleveland for his antler style with strong tynes and a good beam. Here we have matched him to high scoring Rigby, sire of Mordecai (516 IOA & 10.88kg stripped HA @ 2yrs). Note too Huneric on the bottom line is the dam sire of Cane (841 IOA @ 5yrs). Great potential here with this mix!

**Comment:** Sire Hudrock shares his sire Lincoln with Rockafella. He had an impressive IOA score of 590 at just 3yrs of age. He also has a heavy velvet head with well placed lower tynes. Also a big bodied sire. Dam sire Munro had 705 IOA at just 6yrs of age. Note too powerful Schulte Wrede German genetics on the bottom line with Image, Mighty 5 and Amadeus.

**Comment:** Sire Hudrock shares his sire Lincoln with Rockafella. Not only does he have a high scoring antler but a heavy velvet head with well placed lower tyne as well. Look at the antler weights on the dam side - Fitzroy at 23.28kg, Spotburn 403 at 27.8kg and exceptional high scoring antlers throughout the dams pedigree as well. Dual purpose genetics stacked in this young hind.

**Comment:** Sire Cognac was scored at the rising stars competition at 547 IOA without burrs and spread at 3 years. At 6 he didn't grow properly on one side but if he had its estimated he would have been close to 750 IOA. Some of our largest weaner stags and most advanced spikers are by Cognac this year. Dam 6328 has an exceptional trophy pedigree with Orlando, Lord Haka and Huneric (dam sire of Cane).

**Comment:** Sire Mordecai is an impressive 2yr old that caught our eye as a spiker which we first used last year. Mordecai continues to go from strength to strength and so we have included him in our breeding program again this year. We have every confidence he will be as good as his sire Rigby. His antler structure will compliment that of Fitzroy. Be in at the ground floor with these genetics. Please note her dam is closely bred to Metaphor being a Metallica x Amadeus. We recommend this young hind.

**Comment:** Phoenix is another sire that first caught our eye as a spiker. He scored 359 1/8 without burrs and spread with 40 points as a spiker!! We have used him again as a sire in our breeding program this year. Not only do we like the style of his two year old antler which has excellent type placement, we believe his pedigree is going to be extremely potent as well. Remember this young hind is out of a first fawning hind. Again a great opportunity to be the first owner of these genetics.

**Comment:** Last weaner hind offering is by Robert Hay. He too was a spiker that caught our eye and had also been retained as a sire in this years breeding program. He was a 34 point spiker scoring 341 7/8 IOA without burrs and spread. He is a beautiful big bodied stag that really looks the part as a sire stag. Both his antler structure and pedigree gave him great credentials. More big names in the dam pedigree with Orlando, Nixon, Brusnik and McCaw to name a few.

His sire Odysseus is also the sire of McCaw (sire of Cane 841 IOA @ 5yrs), and his sire Chancellor Peel is the sire of many many top industry sires. Exceptional heritability in her dams pedigree also with Scipio (sire of Gregor & Morpheus) and a full sister to Lord Haka. The icing on the cake is she is vetted in calf to Agnew - a full brother to Nixon. Well worth consideration.

He appears in the pedigrees of several industry sires and was also a former SCI World Champ. Orlando with his heavy high scoring antler is the dam sire who is backed up by the great Nixon. And don't forget Davidson on the bottom line was one of the first industry sires to break 700 IOA threshold. Vetted in calf to our impressive new sire Mordecai. A full brother to Mordecai we expect to be one of the stars in our next stag sale. A very heritable mix.

Rigby

**Comment:** Sire Rigby is the sire of many top stags now in the industry, including our Mordecai, (516 IOA 10.88kg stripped HA @ just 2yrs). We will be offering some stunning sons of Rigby in our next sale. A full brother to this dam was sold as Lot 5 in this years stag sale. Vetted in calf to Titanic which brings in a new genetic combination for us. High scoring and heavy antlered Kallis is the sire, and his dam 3291 is closely bred to Cane. Well worth considering.

**Comment:** Sire Davidson was one of the first stags in the industry to break the 700 IOA mark. Dam sire is the great Amadeus, one of our top all round sires for both antler and bodyweight back to National Velvet champ Myson. Note too Lord Haka's dam on the bottom line. Vetted in calf to Robert Hay who we first spotted and used for mating as a spiker. His pedigree is very heritable on both sides and brings a double dose of Davidson to the progeny's pedigree. An exceptional hind mated to a new up and coming young sire.

**Comment:** Sire Fitzroy's best feature was his super long and wide antler structure which he passed on to his progeny. A great match for dam sire Spotburn 403. Both sires also were heavy beamed sires as you can see by their antler weights! Which is what influenced us to mate this hind to Macedon with his stripped HA of 9.94kg at just 2 years. We expect this son of Alexander to be easily in excess of 20kg HA at maturity. Note too Alexander was also the sire of Lot 7 in this years sale, a 3yr old with 18.07kg HA sold for \$62,000.

Fitzroy

**Comment:** Sire Fitzroy's best feature was his super long and wide antler structure. His heavy beamed antler of 23.28kg HA coming from the Henry James sire line. Dam sire Kane was a full brother to Hector and both sires had high scoring eye catching antler as well. Vetted in calf to Cane who was placed 2nd in the National HA competition in Invercargill at just 4yrs. There aren't many of these Cane matings in this sale so be in quick.

Munro

**Comment:** The resultant progeny from this mix has great potential for heavy beamed high scoring antler. With sire Munro @ 705 IOA and looking set to be following in the footsteps of Fig Jam prior to his untimely death this year at the end of his breeding season. Dam sire Archibald is the sire of Alexander, sire of Lot 7 at this years stag sale a 3yr old cutting 18.07kg HA. Vetted in calf to Macedon who at 9.44kg stripped HA looks set to be a 20kg plus sire at maturity.

**Comment:** Sire Walter inherited his antler structure from his sire Davidson who was also the sire of Hunter (817 1/8th IOA). Dam sire Matthew's antler structure will further enhance the "wow" factor of any progeny from this young hind. Vetted in calf to Angus, who was placed 3rd in the National 2yr HA competition, will promote heavy beamed antlers inherited from his sire Alexander. Note too his dam sire McCaw is also the sire of Cane (841 IOA @ 5yrs)
