# Conditions of Sale

## Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

## Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 12.30pm.

## DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

## Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

## Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

# Conditions of Sale cont./ Guarantee

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

## **TB Status**

Our herd status continues to be a C10 classification.

## **Guarantee**

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

## **Disclaimer**

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

# Foreword

## Dear Clients and Friends,

Welcome to our first ever December stag sale!

This is the first year we have offered stags from our retained mob for master sire evaluation. This mob also includes early maturing stags that are too early for our January sales.

Last year we grew all of these stags out to full antler to help assess their potential as either sire or trophy stags. A lot of these stags had been grown out as 2 year olds and had been velvetted since then. We were very impressed with what we saw and have selected a number of three, four and five year old stags to sell in this sale and also our January sales.

The best three and four year olds from last year were measured and these stags were close to or above 400 IOA at that age. We have also selected two new sires from these stags – Alexander (Archibald x Reginald) and Gregor (Commander Peel x Scipio) whose progeny will be available in future sales.

All of the sire stag selection in this sale are strong multi point antlers as you would expect from over 30 years of breeding here at the stud. We are very proud of the offering at this sale and are pleased to be able to share these genetics with you. They are all suitable for mating to large numbers of hinds.

There is also a selection of trophy stags on offer at the end of the catalogue.

Please remember that we are offering extended credit on all of the sire stag selection through until the end of January 2014. If stags are to be hunted this season and extended credit is required please ring Barry before sale day. Further extended credit options are available through Heartland Bank, refer to information on page 8.

We encourage you to attend this sale. The stag selection is a "must see" and we know you will be impressed. Give your sire stag an excellent chance to settle in prior to mating next year, secure your trophy stags prior to travelling overseas and take advantage of the extended credit on offer.

We look forward to catching up with you at the sale.

Best regards,

Bob Robertson

# Mission Statement

## **Our motto** Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

*By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.*

**DBVs** Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

**Velvet** By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

**Trophy** The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tined heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

**Temperament** We continually manage and evaluate the herd for this important trait.

**COMMENT:** Amadeus, truly the most amazing 2 year stag ever produced. His record breaking huge wide expansive, heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3 years is unbelievable. His exceptional 7 year antler takes pride of place in our trophy room. At 634 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Proven genetics!! Tragically Amadeus died this year, but with good semen stocks he will continue to be part of our breeding programme.

**COMMENT:** Unfortunately we lost Image during the rut last year. He has left a huge legacy with his progeny in our herd. His very wide and thick heavy antler style will continue to be highly sought after by the hunting fraternity. Also an excellent sire to promote velvet weight in your herd. We will continue to use Image in our breeding programme using AI and so we will continue to have his progeny to offer in future sales.

**COMMENT:**

Top credentials at 16.75kg supreme velvet at 8 years. Again the thickness of beam will promote thick heavy antler which is highly sought after by European hunters. We grew his head out last year and he scored a massive 563 5/8 IOA. His antlers remained on his head until July before cutting 13.2kg HA. This weight is considerably less than what they would have been if cut pre rut as with our other sires.

**COMMENT:** Prince Philip was the official SCI World Record Trophy stag for 2012 scoring 669 SCI. He is a full brother to Alan Stewart's Foveaux confirming the heritability of this mix. Note also his dam sire Lewis is the sire of Former SCI #1, Charlie Mac. A top performing trophy pedigree in every way.

**COMMENT:** Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. He was the most impressive 3 year old sire offered the year we purchased him. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great.

6	285kg	HA 14.53kg	506 damaged
7	291kg		535

**COMMENT:** Apollo has been strategically bred for big royals on a wide spread, with good body and temperament and we have got the lot! An exceptional trophy mix in his pedigree. Also interesting to note that grand dam 1003's brother 'Little Rock' had an IOA score slightly ahead of Salvador at 2 years. Great grand dam 3068 is the mega dam at Pelorus Deer stud for trophy genetics. 5th in the 2009 Rising Stars HA competition, and with 2 other full brothers in the Top 5, this confirms the heritability we can expect from this rising star. Apollo is impressive this year with his best head yet.

**COMMENT:** Fov Windsor's pedigree impressed us. Of our 3 Warlord sons, this is the most impressive trophy pedigree. Warlord at 573 at just 5 years is an impressive sire who has the "wow" factor for trophy hunters. Add this over Awesome at 520 IOA at just 4 yrs with Heathrow in the background and we have a genetically proven safari pedigree. Sire of Lord Haka at 201kg, HA 13.5kg and IOA 502 at just 2 years, Fov Windsor has established himself as a very heritable sire in our breeding programme.

**COMMENT:** Hector, a full brother of Kane (purchased for \$100,000 off Sarnia Park) has very good heritability anchored against very solid genetics in his background i.e. Harvey and the famous Woburn 80. His massive multi point head of 535 IOA at just 5 years was awesome. He is used extensively over our Germans to enhance trophy genetics within our herd. His 57 point head remains impressive. This year he has developed hugely strong outrigger tynes with the remainder of the antler structure intact and so we look forward with interest to see what happens next! An impressive Woburn sire.

**COMMENT:** Salvador over the great Laszlo and Nova's dam. Foveran specifically targeted Salvador, Chancellor Peel, Super Nova and Laszlo breeding for superb trophy antler architecture. This stag was huge in the bow, bey, trey and main beam as a 2 year old and produced an amazing 3yr antler of 406 SCI. At 5 years Konrad ranked as one of our heaviest master sires in both bodyweight and antler. These are superb genetics for the trophy industry and a highly recommended sire.

**COMMENT:** Archibald, purchased by Foveran from Dave and Mac Bryant, confirms our commitment to purchasing the very best English genetics available. This guy's antlers are enormous with a very thick beam and strong long heavy tines. This combination is heritable, cemented by 96079 (Bentley's dam) & will undoubtedly pass on with our specially selected females to enhance these already huge antler stats, to his progeny. Sire of lot 1 in 2010's stag sale with the new World Record HH weight of 12.53kg at just 2yrs (sold to John Hunter) confirming the heritability of his heavy beamed antler genetics. His stag progeny will be highly prized by the European hunter fraternity.

**COMMENT:** Sire of Zoro, the 40 point spiker placed second in the National 1yr HA Comp (sold to J Hansen for \$35,000). An impressive performance! Here we have strategically targeted Mr Peel (full brother to Chancellor Peel) over the very heritable Lewis (the first 30 point 2year old to be produced in this country and dam sire to Prince Philip). The heritability of this mix is proven by a full brother to Dam 008 with 30+points at just 5 years old.

**COMMENT:** Purchased from Stanfield Park for \$95,000. Sadly we lost Mountbatten during the rut two years ago. By a stroke of luck he served his donor hinds and so his legacy will continue in our herd for some time yet. He was a magnificent sire in his own right and one of the most heritable to date.

His heritable antler factor is second to none with many huge spiker and 2 year heads in our herd. Another 2 year son has an incredible antler weight of 11.86kg with 371 IOA score. A new record for antler weight for age, breaking the previous record by over 2.2kg. Also sire of our master sire Prince Philip.

**COMMENT:** Purchased at Stanfield in 2002 for \$74,000. He has to be rated the best Warnham ever produced with his huge wide head of 19.2kg antler scoring an est. 552 IOA at 6 years. We have some excellent sons—both Pure English and English German cross coming through with huge antler specs. One of his spikers has an enormous rack at 31 points with thick heavy mass. Another 2 year son features with Deer Genetics called JRDG, crossed with Adonis. A huge beautifully correct head of antler. His outside span is 68.5 inches and must also be close to a record in the industry. His huge mansion of antler has what we term the "wow" factor and this is becoming increasingly important in the trophy industry, a prerequisite for the discerning hunter.

**COMMENT:** Lord Ferguson was chosen not only for his pedigree, but also for his hugely wide antler and long tynes. Dam sire Salvador is also sire of Lord Haka (201kg, 13.5kg of antler, IOA 502 at 2 years). Back to Chancellor Peel (sire of Odysseus, Broadband, Commander Peel and other industry greats) confirms the heritability of this sire.

**COMMENT:** Cosmic, purchased from Tower Farms this year is stacked full of proven trophy genetics. Motdonis at 600 SCI with a double up of former SCI World # 1 trophy stag Adonis and then Mrs Antlers on the bottom line. Its worth noting that a Motsumi/ Adonis mix also produced Hannibal proving the heritability of this line. Dam 900 is also the dam of Tower Sire Jethrow. Cosmic's first progeny are now on the ground and we look forward to seeing them develop in our herd. This is his second season in our stud breeding programme. A limited opportunity here to secure progeny from a future industry great!

**COMMENT:** An impressive son of Warlord purchased from Tower Farms as a 2yr old at 213kg. We used him in our breeding program as a 3yr old and then unfortunately the following year he broke his velvet off on one side half way up the beam which held him back and we decided to rest him that year. This year he has produced an impressive 5yr antler of 521 IOA with all the traits that so impressed us at the time of purchase – extremely long and strong brow and bey tynes. Bifurcating treys and exceptionally big long royals. His progeny will be impressive.

Dam sire Warlord is the sire of Fov Windsor (605 IOA) and grand sire of Lord Haka (201kg HA 13.5kg @ 2yrs and 552 IOA @ 3yrs). A well respected pedigree here at the stud. Dam sire Apollo is a full brother to Discombe and Holy Oak. Warlord is the sire of Windsor and grand sire of Lord Haka. A remarkable pedigree highly recommended and well worth your consideration.

**Furzeland**

**Comment:** This stag is a full brother to Lot 1 and Lot 11 in our 2011 stag sale. He was independently scored last year by Murray McWhirter as a 3yr old at 396 IOA. A proven pedigree for consistency with a full brother in this sale also. Bifurcated treys, we estimate this stag at 16 x 16 points plus.

**Comment:** A Pure Schulte Wrede German well worth consideration with Amadeus as his sire. Over heavy beamed Hermanson and down to Wredeson (sire of Wredeson Major) and foundation sire Wrede throughout the pedigree, this stag is packed with the dual purpose genetics for both bodyweight and antler. Note the heavy weighted dams throughout the pedigree. Potentially a 30 point plus head. Good tops, a very strong head overall.

**Comment:** Munich has impressed as a sire as his name continually pops up as the sire of many impressive stags in this sale. His heavy beamed high scoring antler is a worthy match for the top all round sire, Amadeus. Heavy beamed high scoring antler feature throughout the pedigree and we recommend these top performing Schulte Wrede German genetics for both bodyweight and antler. Strong front tynes, double trey, multi pointed tops coming but too early to estimate points.

**Comment:** Prince Philip was the SCI World Record stag for 2012 at 669 SCI. He was also the sire of impressive 34 point spiker sold as lot 40 at our January stag sale for \$13,000. Dam sire Thomas Albert heavy beam at 19.7kg HA. Note also another former SCI World Record, Charlie Mac on the bottom line. This stag has strong front tynes. We estimate 20 plus points.

An incredible record for this stag to pass on in his progeny. This stag had 25 points last year. Looking very multi pointed this year but too early to estimate points.

**Comment:** Mountbatten is the sire of Prince Philip who was the SCI World Record for 2012 at 669 SCI, and also Alan Stewart's Foveaux. Dam sire Lewis is also the dam sire of these two great sires and is the sire of Charlie Mac, a previous SCI World Record trophy sire. An impressive record of heritability that has passed to this young stag. Expect over 20 points. A good all round stag.

His extremely heavy beamed antler makes him a top dual purpose sire for both trophy and velvet antler. **Comment:** Archibald was the sire of lot 1 in our 2009 stag sale, a two year old at 201kg cutting 12.53kg of antler which was the industry record at the time. Over Bradford who shares his sire with Hotspur (HA 22.3kg) and then National Velvet Champ Harvey on the bottom line, this pedigree is all about heavy beamed antler. Scored at 431 @ 4 years. This is an impressive sire or trophy stag with very strong front tynes, a heavy beamed multi pointed head.
