Welcome to

Gloriavale Deer Park

We extend a warm welcome to you all for our 12th Annual Elite Sire Stag Sale, combined with a wonderful selection of yearling hinds - by Public Auction at our sale venue of Mt. Hutt Station Sale Complex. The venue and location of our sale (map at back of catalogue) is ideal and, after much hard work getting it ready, we held our first sale there in 2013, with much positive feedback.

With velvet very strong at \$120 - \$130/kg this year, along with increasingly good strong demand for Trophy Stags from the Trophy Hunters, the deer industry is vibrant and looks better than it has for a long while.

Bearing this in mind, now is the time to invest in leading proven genetics for performance to capitalise on a positive industry.

Our deer are now ranking among the best in the world, with many clients commenting that our deer shift well and continue to perform as they are fed and run very commercially.

Heavy velvet weights with high scoring trophy heads showing excellent structure and conformation is paramount in our breeding programme.

PROVEN GENETICS THAT PERFORM!!

Best wishes to all,

The Team at Gloriavale Deer Park

The breeding and performance is all behind Yellow 193-11, a son of the stylish REDWOOD (Top Priced 2009 stag @ \$40,000) out of unique dam line of TAYLOR (18.1 kg HA) x RUGBY (High 500 SCI stag). SIRE: WOODY - 680 IOA @ 5 yrs

Sire of Dam: WARRIOR

Superstar!!

“AWESOME!” This stag has huge multipointer Trophy genes right throughout his pedigree. Sired by WOODY the current New World Record at 712 6/8 SCI over Dam Pink 61-08 a WARRIOR (530++ SCI) daughter back to grand-dam Blue 23-04, a JAMIESON (573 SCI) x our #1 ranked hind Y846 a HARVEY (11.59 kg SAV) daughter. This is one stag to keep a close eye on as I believe his head will explode as he matures. Was an Awesome 28 point spiker and cut 3.4 kg SA short velvet @ 2 yrs , which was a absolutely massive lump of velvet. Seriously considered retaining this stag as a sire and may yet do if the realistic reserve is not met. Potential Superstar!

CRAYFISH a legend in his own right (550 IOA, 63 points @ 6 yrs) is the sire and is consistently leaving excellent sons, no matter the dam line. This stag may be retained as a New Sire for our stable if doesn't meet reserve. Cut an excellent perfect 4.0 kg SA head of velvet at 2 yrs and had a huge 32 point spiker head. Sire of Dam: MERLIN

This young stag has the whole package. Width, Spread, Heavy Velvet Weights, multiple points, high SCI score. It's all there in the breeding. ACCELERATE the sire is a stag that is just "WOW". 75 inch outside spread and 46 inch long / 13 inch circumference beam impressed all that see him, and he is highly heritable and passing it onto his offspring. The dam Y308-03, which we purchased from Pampas Heights has produced several very good sons for us.
