## Semen Catalogue 2011/2012

### Sales by Private Treaty

Because we are retiring from Stud Sales, although we will continue to breed great trophies, semen from all our top sires is available to the industry to tap into 30 years of selected breeding for long tined stags.

Only 18 straws of Awesome semen remain and 10 of these are offered for sale at \$3000 each. Awesome has left a lot of top sires with his genetic strengths of long tines, cluster tops, superb temperament and great growth rates.
